رادمان پلاست

Radman Plast...

Radman Plast Company, operating officially since 2011 as one of the leading manufacturers of polyethylene tanks, initiated its activities with the efforts of specialized experts. The production of polyethylene tanks with a wide variety of capacities, along with more than 200 active sales representatives and agents across the country, has made Radman Plast a well-known name. Paying attention to customer satisfaction, surpassing the competitors, and considering social responsibility are among the notable points that have made Radman Plast a leading brand.

This product diversity has eliminated any concern from both producers and consumers, creating a two-way connection between them.

Radman Plast, by offering the highest quality and the most diverse tank models, has taken on the trust of its customers to produce tanks with a variety of features and considerable advantages, propelling the country's economic cycle forward
